Sanjika Winter Bulletin

Winter at Sanjika Head Quarters Mooi River

Special points of interest:

- > Mooi River has an annual rainfall of 1000mls per year.
- > Sanjika Cattle run on sourveld of Rooi Grass & Kikuyu
- > Sanjika Sale Bulls are Raised the Excelsus Hard way from twelve months on in the Free State
- > The Snow reaches up to half a meter deep regularly

Wenner ply's his trade at Sanjika

Sanjika Wenner standing at stud at Sanjika, Mooi River. Wenner is the typical Simmentaler type that Sanjika wants to breed. Early maturing, Glossy Coated, Masculine, Correct with a wonderful Temperament.

Wenner joins Taaibospruit Proman, Kyksim Honeymoon and Sanjika Volvo as the Bull Battery for the 2011 breeding season. Look out for their calves in 2012

Sanjika and Excelsus Simmentaler Alliance present our latest stud Bull Kyksim Honeymoon

Special points of interest:

- © Honeymoon was bred by the Swart Bros from Swellendam.
- © Honeymoon was Chief Stud Bull at Stansim Simmentalers.
- © Honeymoon breeds purple red early maturing calves
- © Honeymoon has been used in Excelsus F1 Breeding Program

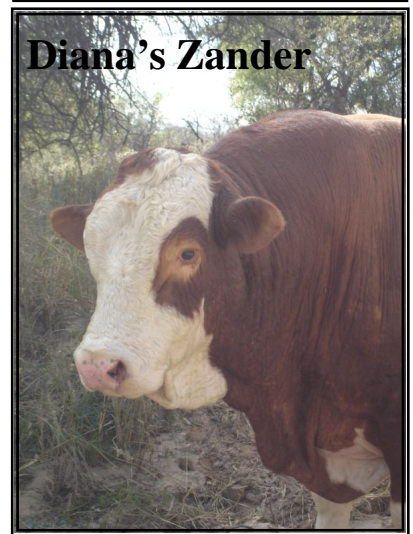

Sanjika believes in using only the best genetics to breed hardy, early maturing, right type animals that will survive in any conditions. Kyksim Honeymoon, Taaibosspruit Proman and Diana's Zander are three proven sires and their calves are of such quality that we simply had to use them. Honeymoon & Zander are both polled and Proman and Honeymoon have top show records.

Our first calves from these fine bulls look awesome!
